

- FOUNDED** Family owned and operated since 1976
- PRODUCTS** Broadline Distribution, Value Added Component Assembly and Custom Solutions consisting of: Build to Print, Copper, Fiber and RF Cable and Harness Assemblies; and Electro-Mechanical, Harsh Environment, Power and Waterproof Components and Assemblies.
- OPERATIONS** In-house extensive engineering experience in design, modification, ruggedizing, assembly and quality control of engineered solutions.
- FACILITY** 30,000 square feet housing Administration, Engineering, Inventory, Manufacturing and Quality
- OVERVIEW** Koehlke serves customers throughout the United States and across the globe, including international and US Original Equipment Manufacturers, tiered subcontractors, brokers, distributors, and defense organizations for the US and its allies. Our mission is to provide exceptional customer support and innovative, cost-controlled, high-quality products. Our priority is our customer's success.
- DISTRIBUTION** Through Koehlke, our customers have access to our multi-million dollar inventory of military, industrial and commercial grade components, which are available to ship same day.

Request a quote by searching our extensive, real-time inventory online at www.koehlke.com or by calling 877-KOEHLKE.

- VALUE ADDED** With capabilities dating back to the 1980s, Koehlke's value added assemblies are approved and listed on multiple Qualified Products Lists (QPLs) including M28840, M28876, M26482 and M5015.

CUSTOMIZED SOLUTIONS

With a customer-centric approach, our experienced team proactively designs innovative solutions to bring your engineering vision to life. Koehlke is a leader in new product development, driven by deep engineering experience, competitive manufacturing capabilities and exceptional quality assurance. Our in-house operations include experts with extensive engineering experience in design, modification, ruggedization, assembly and quality control of engineered solutions. And since all operations are housed inside our 30,000-square-foot headquarters, Koehlke provides your assemblies with costs controlled and delivery on time.

We take pride in delivering products with zero defects on time.
